

Certificate of origin.

Allergens-related statements.

BSE/TSE related safety statements.

<i>Product name</i>	Gliotoxin (Fermentek)
<i>Brand:</i>	For research
<i>Product catalog code:</i>	GL
<i>CAS Rn:</i>	67-99-2
<i>Scope</i>	All lots manufactured prior to Sunday, 19 February , 2017

Certificate of origin

Product origin: "Made in Israel"

Fermentek Ltd hereby confirms that the above mentioned product was entirely manufactured in Jerusalem, Israel, in the Fermentek manufacturing site.

Allergens related statements

The above mentioned product is in no case intended for any use in humans or animals, and particularly it is not a drug or a component of a drug, not a food or feed stuff, or a food additive. It is only sold as be used by trained professionals for research only, in properly equipped research laboratories. Therefore, no regulations regarding allergens content in Food, Feed, Drugs and Cosmethics, are applicable to the product above mentioned.

Nevertheless, Fermentek confirms that the product does not contain, or is not derived from substances listed below: Gluten/wheat, Gluten/Rye, Gluten/barley, Nuts, Lactose, Eggs and derived products, Milk and derived products, Corn, Soybean and derived products.

BSE/TSE related safety statements.

To our best judgement, the above mentioned product does not present any hazard related to BSE/TSE, because:

The product was isolated from fungal or microbial biomass by methods common in chemistry, such as extraction with solvents, partitioning, sedimentation, crystallization, chromatography and the like.

The fungal or microbial biomass from which the product was later isolated, was prepared by the method of fermentation, using no raw-materials of animal origin.

Fermentek Ltd confirms that the above mentioned product was manufactured in compliance witj the European guidance EMEA / 410 / 01 rev 2 Oct.2003.

I certify this information is correct and verifiable.
