		If medical attention is required, show this safety data sheet to the doctor in attendance.
Inges	tion:	If swallowed: give water to drink (two glasses at most). Seek medical advice immediately.
4.2.	Most important syn	nptoms and effects, both acute and delayed
Gene	ral symptoms	See section 11
<i>4.3</i> .	Indication of any in	mmediate medical attention and special treatment needed
Note	to physicians	No data available
5.	Fire-fighting me	asures.
5.1.	Extinguishing med	lia.
Suita	ble extinguishing media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsu	itable extinguishing medi	a None known
5.2.	Other information	
Haza	rdous combustion produc	ets Carbon oxides, Nitrogene oxides, Sulfur oxides, Sulfur hydrogene C19H36N8O12S
Advic	ce for firefighters	Wear self-contained breathing apparatus for fire fighting if necessary. Wear protective suit.
6.	Accidental releas	se measures
6.1.	Personal precautio	ns, protective equipment, and emergency procedures
Perso	onal precautions	Use personal protective equipment as required. Keep people away from and upwind of spill/leak.
<i>6.2</i> .	Environmental pre	cautions
Envir	conmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.
<i>6.3</i> .	Methods and mater	rial for containment and cleaning up
Meth	ods for containment:	Prevent further leakage or spillage if safe to do so. Cover the powder spin with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.
Meth	ods for cleaning up:	Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Cover liquid spill with sand, earth or other non- combustible absorbent material (e.g., sand, earth, diatomaceous earth, and vermiculite). Cover the powder spill with a plastic sheet or tarp to

SDS Nourseothricin vers 8-2024

	minimize spreading. Sweep up and shovel into suitable containers for disposal.
7. Handling and st	orage
7.1. Precautions for say	fe handling
Advice on safe handling:	Avoid contact with skin, eyes or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product.
7.2. Conditions for safe	storage, including any incompatibilities
Storage Conditions:	Keep container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Store at -20 °C.
Suitable packaging	Must only be kept in original packaging.
Incompatible materials:	None known based on information available.

### 8. Exposure Controls/Personal Protection

Attiention:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances. Therefore, the employer/user should perform a risk assessment prior to the use of this product.

The type of protective equipment must be selected based on the amount and concentration of all dangerous materials being used in the workplace.

All recommendations included in this document are advisory in nature

### 8.1. Control parameters

1	
Control parameters	Components with workplace control parameters
8.2. Exposure controls	
Appropriate engineering controls	Showers, Eyewash stations, Ventilation systems Avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product. Use fume-hood for routine work.
	•

### 8.3. Personal protective equipment

[PPE=Personal Protection Equipment]

SDS Nourseothricin vers 8-2024

Page 5 of 9

PPE: Respiratory protection	Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
PPE: Hand Protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal techniques to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices, and wash and dry hands
PPE: Eye Protection:	Use a face shield and safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU)
PPE: Skin and Body Protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.

### 9. Physical and chemical properties

The information given here does not purport specification of warranty of any kind. It is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification.

### 9.1. Physical/chemical properties

Physical State at room temperature Solid

Appearance	White to faint brown powder
Appearance	while to juint brown powder

No further safety relevant data are available

### 10. Stability and reactivity

Reactivity:	No information available.		
Chemical stability:	Stable under normal conditions.		
Conditions to avoid	Heat, flames and sparks. Sunlight.		
Incompatible materials	Strong reducers and exidizers		
Possibility of hazardous reactions	None under normal processing		
Hazardous combustion products	See section 5

# 11. Toxicological information

### 11.1. Information on toxicological effects

To the best of our knowledge, the toxicological effects of this product have not been thoroughly studied yet. *11.1.1.* Acute Toxicity

Acute toxicity:	ESTIMATE Oral, Mouse, LD50=2 gr/kg Oral, Rat, LD50=1185 mg/kg Intravenous, Rat, LD50=20.8 mg/kg No other acute toxicity available.
Skin corrosion/irritation:	Inhalation: No data available Dermal: No data available
Serious eye damage/eye irritation:	No data available
Respiratory or skin sensitization/corrosion:	data available

#### 11.1.2. Chronic toxicity

Chronic toxicity	No data available
11.1.3. CRM (Carcinogene, Mutag	gene, Reproductive hazards)
Germ cell mutagenicity:	No data available
Carcinogenicity:	Not listed by IARC
<i>Reproductive toxicity / Teratogenicity:</i>	No data available

#### 11.2. Additional information

RTECS number	RD4240000
General symptoms	Behavioral:Tremor. Lungs, Thorax, or Respiration:Dyspnea. Diarrhea

### 12. Ecological Information

Eco-Toxicity	No data available
Other adverse effects	No data available

# 13. Disposal Considerations

# 13.1. Waste treatment methods

Waste Disposal	Dispose of in accordance with local regulations
Contaminated packaging	Dispose of as unused product

hazard Class,	transport	transport	transport	transport
Packing group	Not regulated	Not regulated	Not regulated	Not regulated
Comments		Not marine polutant		

# 15. Regulatory information

### 15.1. Safety, health, and environmental regulations/legislation

USA EPA / TSCA	This product is not listed on the USA EPA TSCA (it is for research)
EU ECHA Status	This product is registered with the EU ECHA, Number 635-448-1 REACH: Neither Registered nor PreRegistered. ANNEX III (criteria for 1 - 10 tonne registered substances): Not Listed

### 16. Other information

### 16.1. Version information

Version date:8-2024 Updated hazard levels. Updated Transportation classification

### 16.2. Department issuing this SDS

Quality systems and regulatory affairs

### 16.3. General Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication.

The information given here is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and **is not to be considered a warranty or quality specification**. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless explicitly specified in the text.

### 16.4. The users'/employers' responsibility:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances.
