Sheet	

SDS Penicillic-acid vers 8-2024

2. Hazards' identification.

2.1. Classification of the Substance.

2.1.1. GHS Classification: According to EU Reg. 1272/2008 and US OSHA 1910.1200)

5	0	0	,
Accute toxicity: Oral	Category 4	H302	Harmful if swallowed
Carcinogenicity			Neoplastic by <rtecs> criteria. <iarc>Not classifiable as to its carcinogenicity to humans.</iarc></rtecs>
Reproductive toxicity	Category 2	H361fd	Suspected of damaging fertility; Suspected of damaging the unborn child

2.2. GHS Label elements, including precautionary statements

2.2.1. 2.2.2.	Pictogram: {	Signal word: {Warning}
H302		Harmful if swallowed
2.2.3.	GHS Precautionary Sta	atements
P203		Obtain, read and follow all safety instructions before use.
P261		Avoid breathing dust or mist.
P264		Wash {hands} thoroughly after handling.
P270		Do not eat, drink or smoke when using this product.
P272		Contaminated work clothing should not be allowed out of the workplace.
P280		Wear protective gloves/protective clothing/eye protection/face protection/hearing protection
221	CUS Desponse Dhrase	~

2.2.4. GHS Response Phrases:

	H302
P301+P317; P330	IF SWALLOWED: Get medical help. Rinse mouth.
P308+P313	IF exposed or concerned: Get medical advice/attention

3. Composition/information on ingredients

Substance	^ <i>P</i>
Substance Name:	Penicillic-acid
Concentration	<=100%
CAS Registry#:	90-65-3
<i>EC</i> #:	202-008-1

6. Accidental release measures

6.1. Personal precautions, protective equipment, and emergency procedures

Perso	nal precautions	Use personal protective equipment as required. Keep people away from and upwind of spill/leak.
<i>6.2</i> .	6.2. Environmental precautions	

Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.
	entering arains.

Safety

Page 4 of 9

6.3. Methods and material for containment and cleaning up

	liquid spill for later disposal.
Methods for cleaning up:	Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Cover liquid spill with sand, earth or other non- combustible absorbent material (e.g., sand, earth, diatomaceous earth, and vermiculite). Cover the powder spill with a plastic sheet or tarp to minimize spreading. Sweep up and shovel into suitable containers for disposal.

7. Handling and storage

7.1. Precautions for safe handling

Advice on safe handling:	Avoid contact with skin, eyes or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions:	Keep container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Store at -20 °C.
Suitable packaging	Must only be kept in original packaging.
Incompatible materials:	None known based on information available.
0 D <i>C</i> ·	

8. Exposure Controls/Personal Protection

Attiention:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances. Therefore, the employer/user should perform a risk assessment prior to the use of this product.

The type of protective equipment must be selected based on the amount and concentration of all dangerous materials being used in the workplace.

All recommendations included in this document are advisory in nature

8.1. Control parameters

Control parameters

Components with workplace control parameters

SDS Penicillic-acid vers 8-2024

Page 5 of 9

8.2. Exposure controls

_	
Appropriate engineering controls	Showers, Eyewash stations, Ventilation systems Avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product. Use fume-hood for routine work.
8.3. Personal protective	
[PPE=Personal Protection Equ	
PPE: Respiratory protection	Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
PPE: Hand Protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal techniques to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices, and wash and dry hands
PPE: Eye Protection:	Use a face shield and safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU)
PPE: Skin and Body Protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.

9. Physical and chemical properties

The information given here does not purport specification of warranty of any kind. It is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification.

9.1. Physical/chemical properties

Physical State at room temperature	Solid	
Appearance	White to light yellow powder	
No further safety relevant data are available		

SDS Penicillic-acid vers 8-2024

Page 6 of 9

10. Stability and reactivity

•	•
Reactivity:	No information available.
Chemical stability:	Stable under normal conditions.
Conditions to avoid	Heat, flames and sparks. Sunlight.
Incompatible materials	Strong reducers and exidizers
Possibility of Hazardous Reactions	None under normal processing
Hazardous combustion products	See section 5

11. Toxicological information

11.1. Information on toxicological effects

To the best of our knowledge, the toxicological effects of this product have not been thoroughly studied yet. *11.1.1.* Acute Toxicity

Acute toxicity:	Oral, Mouse, LD50=600 mg/kg Intrapetoneal, Mouse, LD50=90 mg/kg Subcutaneous, Mouse, LD50=100 mg/kg Intravenous, Mouse, LD50=100 mg/kg No other acute toxicity available.
Skin corrosion/irritation:	No data available
Serious eye damage/eye irritation:	No data available
Respiratory or skin sensitization/corrosion:	No data available

11.1.2. Chronic toxicity

Chronic toxicity

<i>11.1.3</i> .	CRM (Carcinogene, .	Mutagene,	Reproductive	hazards)
-----------------	---------------------	-----------	--------------	----------

Germ cell mutagenicity:	Mutations reported in bacteria, human cell culturtes	
Carcinogenicity:	Group 3: Not classifiable as to its carcinogenicity to humans.	
Reproductive toxicity / Teratogenicity:	Mouse, 😨, IP 90 mg/kg, 10D postconcept: Fetus: fetotoxicity. Fertility: Fetal death; post-implant. mortality;	

11.2. Additional information

RTECS number

MM2625000

No data available

Safety	
Data	Penicillic-acid
Sheet	

SDS Penicillic-acid vers 8-2024

Page 7 of 9

General symptoms	No data available		
12. Ecological Informat	ion		
Eco-Toxicity	No data available		
Other adverse effects	No data available		
13. Disposal Considerations			
13.1. Waste treatment methods			
Waste Disposal	Dispose of in accordance with local regulations		
Contaminated packaging	Dispose of as unused product		

14. Transport information

14.1. UN Number, Proper Shipping Name, Transport Hazard Class, packing group

	IATA	IMDG	ADR/RID	US/DOT
UN Number, Proper shipment name	Not classified (Penicillic-acid)			
Transport hazard Class, Packing group	Not hazardous for transport Not regulated			
Comments		Not marine polutant		

15. Regulatory information

15.1. Safety, health, and environmental regulations/legislation

USA EPA / TSCA	This product is not listed on the USA EPA TSCA (it is for research)
EU ECHA Status	This product is registered with the EU ECHA, Number 202-008-1
	REACH: PreRegistered.
	ANNEX III (criteria for 1 - 10 tonne registered substances): Listed

16. Other information

16.3. General Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication.

The information given here is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and **is not to be considered a warranty or quality specification**. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless explicitly specified in the text.

16.4. The users'/employers' responsibility:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances.

Therefore, the employer/user should perform a risk assessment by prior to the use of this product. The type of protective equipment must be selected based on the amount and concentration of all dangerous materials being used in the workplace.

All recommendations included in this document are advisory in nature.

16.5. No © copyright

Fermentek does not claim © copyright on this document. Fermentek believes that no one can claim copyright on an SDS. This sort of document is but a compendium of common knowledge and published facts. Fermentek explicitly releases this document into the public domain.

16.7. Appendix A : Abbreviations and acronyms:

	This symbol means, the text looking like a hyperlink, is a clickable link indeed. Of course, these are only
	active on glass screens, not on paper.
	"From" means the compound was extracted from biomass, whether algal, fungal, microbial or plant material
From /Synthetic	"Synthetic" means this compound has been manufactured by chemical conversion of another compound.
/Semisynthetic	Often, certain product is made by the method of microbial fermentation, purified, and then chemically
	converted into another compound. It may be called "semisynthetic".
	Substance means a single compound.,
Mixture/Substance/	Mixture means there are two or more pure substances mixed purposely.
Complex	Complex is a mixture of two or more substances which naturally occur together and are sold
