Therefore, no regulations regarding allergens content in Food, Feed, Drugs and Cosmetics, are applicable to the product above mentioned.

*Nevertheless, Fermentek confirms that the product does not contain, or is not derived from substances listed below:
Gluten/wheat, Gluten/Rye, Gluten/barley, Nuts, Lactose, Eggs and derived products, Milk and derived products, Corn, Soybean and derived products.*

BSE/TSE safety information

To our best judgement, this product does not present any BSE/TSE hazard.
This product has been prepared by the method of Fermentation, followed by chemical purification. Certain "safe" raw materials originated in animals were used as Growth Media Ingredients. These raw materials were procured from major vendors, who presented sufficient proof of these materials being safe in the meaning of the European guidance EMEA / 410 / 01 rev 2 Oct.2003. Following the Fermentation step, the product was extracted from the biomass and purified by common chemical methods.

Fermentek Ltd confirms that the above-mentioned product was manufactured in compliance with the European guidance EMEA / 410 / 01 rev 3.

I certify this information is correct and verifiable.
