REACH

A registration number is not available for this substance as the substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

section 2. Hazards identification

Classification of the substance or mixture

Eye irritation (Category 2), H319 ...Causes serious eye irritation.

Label elements

Labelling according Regulation (EC) No 1272/2008

Pictogram !  Signal word Warning

Hazard statement(s)

H319 Causes serious eye irritation.

Precautionary statement(s)

P280 Wear eye protection/ face protection.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/ attention

section 3. Composition/information on ingredients

Mixture

Not mixture.
section 4. **First Aid Measures**

4.1 **Description of First Aid Measures**

**General advice:** If medical attention is required, show this safety data sheet to the doctor.

**Inhalation:** Remove to fresh air. If not breathing, give artificial respiration. Use barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. If symptoms persist, call a physician.

**Skin Contact:** Wash off with soap and plenty of water.

**Eye contact:** Flush with plenty of water.

**Ingestion:** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink plenty of water. Clean mouth with water and drink afterwards plenty of water.

section 5. **Fire-fighting measures**

**Extinguishing media**

- **Suitable extinguishing media:** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- **Unsuitable extinguishing media:** None
- **Hazardous combustion products:** Carbon oxides
- **Advice for firefighters:** Wear protective suit and self-contained breathing apparatus for fire fighting if necessary.

section 6. **Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**

**Personal precautions:** Use personal protective equipment as required. Keep people away from and upwind of spill/leak.

**Environmental precautions:** Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.

**Methods and material for containment and cleaning up**

**Methods for containment:** Prevent further leakage or spillage if safe to do so. Cover powder spill with plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

**Methods for cleaning up:** Cover liquid spill with sand, earth or other non-combustible absorbent material (e.g. sand, earth, diatomaceous earth, and vermiculite). Cover powder spill with plastic sheet or tarp to minimize spreading. Sweep up and shovel into suitable containers for disposal.

section 7. **Handling and storage**

**Precautions for safe handling**

**Advice on safe handling:** Avoid contact with skin, eyes or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product.

**Conditions for safe storage, including any incompatibilities**

**Storage Conditions:** Keep container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Store at -20 °C.

**Incompatible materials:** None known based on information available.

section 8. **Exposure Controls/Personal Protection**

No occupational exposure limits are listed for this material.

**OSHA permitted exposure limits:** No Data Available

**ACGIH Threshold Limit Values:** No Data Available
Exposure controls

Appropriate engineering controls
Engineering Controls: Showers, Eyewash stations, Ventilation systems
Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Use fumehood for routine work.

Personal protective equipment
The employer/end user, prior to use of this product should perform all recommendations below are advisory in nature and a risk assessment. The type of protective equipment must be selected based on the amount and concentration of the dangerous material being used in the workplace.

[PPE=Personal Protection Equipment]

PPE: Respiratory protection
Where risk assessment shows air-purifying respirators are appropriate, use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

PPE: Hand Protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal techniques to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices, and wash and dry hands

PPE: Eye Protection: Use a face shield and safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU)

PPE: Skin and Body Protection: Handle with gloves. Wear protective clothing. Choose body protection according to the amount and concentration of the dangerous substance at the work place. When deemed needed according to the concentration and amount of this product, use a complete body suit

section 9.  Physical and chemical properties

Physical / chemical properties

Physical State at room temperature: Solid / powder

No further safety-relevant information is available

section 10.  Stability and reactivity

Reactivity: No information available.
Chemical stability: Stable under normal conditions.
Conditions to avoid: Heat, flames and sparks. Sunlight.
Incompatible materials: Strong reducers and oxidizers
Possibility of Hazardous Reactions: None under normal processing
Hazardous decomposition products: Carbon oxides, Nitrogen oxides

section 11.  Toxicological information

Information on toxicological effects

The toxicological effects of this product have not been thoroughly studied.

Acute Toxicity: no data available
Skin corrosion/irritation: No data available
Serious eye damage/irritation: No data available
Respiratory or skin sensitization: No data available
Germ cell mutagenicity: No data available
section 12. **Ecological Information**

**Eco-Toxicity**
No further relevant information available

**Other adverse effects**
No further relevant information available.

section 13. **Disposal Considerations**

**Waste treatment methods**
- Waste unused products: Dispose of in accordance with local regulations
- Contaminated packaging: Dispose of as unused product

section 14. **Transport information**

**UN number, Proper Shipping Name, Transport Hazard Class, packing group**

<table>
<thead>
<tr>
<th>UN Number</th>
